

Project 01 – Personal Budget Dashboard

Overview

This project is an interactive Personal Budget Dashboard built using Microsoft Excel. It analyzes personal income and expenses through financial calculations, PivotTables, PivotCharts, and slicers.

Project Objectives

- Analyze income and expenses
- Calculate total savings and savings rate
- Monitor monthly financial performance
- Analyze expenses by category
- Analyze payment methods
- Build an interactive Excel dashboard

Workbook Structure

Dashboard: KPI cards, charts and slicers

Pivot: PivotTables for monthly summary, category and payment analysis

Calculations: Total Income, Total Expense, Total Savings and Savings Rate

Lookup: Summary calculations using SUMIFS

Raw_Data: Original transaction dataset

Excel Skills Demonstrated

- Excel Tables
- Structured References
- SUMIFS
- IF
- PivotTables
- PivotCharts
- Slicers
- Dashboard Design
- KPI Reporting
- Cell Formatting

Dashboard Visualizations

- Monthly Income vs Expense
- Expense Distribution by Category
- Payment Method Analysis

Screenshots Included

- Dashboard
- Pivot
- Lookup
- Raw_Data
